

# COVID Vaccine Timelines

(updated for 2nd boosters)

## ADULTS OVER 50

### Pfizer/Moderna Recipients

**first dose**

**second dose**  
21/28 days after first dose

**first booster dose**  
at least 5 months after first dose  
*mRNA vaccine preferred (Pfizer or Moderna)*

**second booster dose**  
at least 4 months after first booster dose  
*mRNA vaccine ONLY (Pfizer or Moderna)*

*\*Moderna primary doses are 0.5 mL (100 mcg) and booster doses are 0.25 mL (50 mcg).  
Pfizer doses are the same amount, regardless of whether a primary or booster dose.*

### Janssen Recipients

**single dose**

**first booster dose**  
at least 2 months after Janssen dose  
*mRNA vaccine preferred (Pfizer or Moderna)*

**second booster dose**  
at least 4 months after first booster dose  
*mRNA vaccine ONLY (Pfizer or Moderna)*

*\*People ages 18-49 who received the Janssen COVID-19 vaccine for their primary series and booster dose are also eligible to receive a second booster (Pfizer or Moderna **only**) at least 4 months after the 1st booster dose.*

# COVID Vaccine Timelines

(updated for 2nd boosters)

## Immunocompromised Ages 12\*\* and Up

### Pfizer/Moderna Recipients

\*Moderna primary doses (1st, 2nd, 3rd) are 0.5 mL (100 mcg) and booster doses are 0.25 mL (50 mcg). Pfizer doses are the same amount, regardless of whether a primary or booster dose.

\*\*For patients 12-17, only the Pfizer vaccine may be used. Moderna is only approved for ages 18 and up.

\*\*\*The choice of vaccine for the 3rd Dose (also known as "additional dose") should be the same as one used for the first two doses, if available.

### Janssen Recipients
